

VIDEO CONTROLLER VT-51VHK

Powerful graphics chipset that supports ultra-high definition video output up to 4K at 30Hz and greater functional flexibility with USB interfaces. It comes pre-installed with the most important ValueSTek applications.

ValueSTek offers a wide range fully configured with your choice of modular cards, with growth capacity and operating system with permanent licensing.

The VT-51VHK allows you to store, modify, preview, project, different layouts, texts, images on different screens or a single large screen, using USB or the PC with just drag and drop.

It includes the option to schedule the projection of your layouts 24 hours a day at the desired time and schedule.

Its HDMI connections are compatible with different audio/video sources such as: TV Box, TV cable decoders, sound systems, video conferencing systems.
